PROFILE

I have accomplished a Bachelor of Computer Applications (BCA) degree, which furnished me with a robust understanding of computer science and software engineering. Additionally, I completed a full stack developer course, which taught me how to conceive, create, and execute web applications using modern technologies and frameworks.

My proficiency encompasses both front end and back end development, including MERN Stack , HTML, CSS,JavaScript. Given my knowledge and experience, I am confident in my ability to develop dynamic and responsive web solutions for diverse clients and users.

TECHNICAL SKILLS

Frontend : Htmlv5,CSS v4, JavaScript ES7.ReactJS

Backend : Node js & Express js

Framework :Tailwind CSS v3.0

Database : MongoDB Atlas

Version Control : Git,Github

PROJECT

Portfolio: The portfolio website acts as a showcase for my work, presenting projects in a professional and engaging manner.

Weather App: This project exhibits my ability to integrate APIs for real-time data, enabling users to access current weather details effortlessly.

Vehicle Project: Here, I delved into full-stack development, implementing CRUD operations to manage vehicle data effectively. Leveraging technologies like React for the frontend and MongoDB for the database, I ensured seamless data management and interaction.
